

CLR NF

Calcium – Lime – Rust

Non-foaming acidic cleaner

For scale and Rust

DESCRIPTION

CLR NF is a non foaming acid cleaner designed for C.I.P (cleaning in place) systems. **CLR NF** removes scale and residue from all types of production equipment.

APPLICATION

CLR NF is used at a concentration of 0.5-2.0% for cleaning in place. A concentration of 5.0% is recommended for manual cleaning. Temperatures in excess of 50°C should be avoided when using this chemical.

PROPERTIES

Appearance: Clear liquid

pH (1% solution): 2.00±1.00

Specific gravity @ 25°C: 1.442±0.050
