

# SOL KLIN

## Neutral Cleaner & Sanitizer

**FOAM KLIN** is a liquid foaming cleaner formulated to clean and sanitize surfaces in contact with food found in dairies, wineries, breweries, and food, beverage and meat processing and packaging plants.

### DIRECTIONS FOR USE

Use **FOAM KLIN** at a concentration of 6% to 10%. This dilution will provide **600** to **1000** active ppm of quaternary ammonium chloride. This dilution controls microorganisms such as **virus, bacteria, yeast and mold.**

Let this dilution be in contact with surfaces for at least 15 to 30 minutes then rinse with abundant potable water.

### PROPERTIES

Appearance: Clear yellowish liquid

Odour: Pleasant

pH : Neutral

Specific gravity @ 25°C: 1.150±0.050

Solubility: Complete
