WIDE-SPECTRUM 10

LIQUID SANITIZER FOR HARD SURFACES

GUARANTEE:
POLYHEXAMETHYLENE BIGUANIDE (PHMB): 10%

DESCRIPTION

WIDE-SPECTRUM 10 is a non-foaming sanitizer that could be used by circulation or manual application to sanitize non-porous hard environmental surfaces in food processing plants.

APPLICATION

Remove gross filth and heavy soil deposits. Preclean all surfaces prior to application.

Concentration: Thoroughly wet surfaces. Dilute 0.5 part **WIDE-SPECTRUM 10** in 100 parts water (5 mL **WIDE-SPECTRUM 10** /1 Liter of water). This dilution provides 500 ppm of active polyhexamethylene biguanide. Allow treated surfaces to remain wet for a minimum of 10 minutes in a single application. Can be applied with a mop, sponge, or cloth as well as coarse (trigger) spray. Prepare a fresh solution for each use then discard. **For food plant use, food contact surfaces should be rinsed with abundant potable water after application.**

To Sanitize: For use on hard non-porous surfaces such as counter tops. Preclean all surfaces prior to sanitizing. Dilute 2 mL **WIDE-SPECTRUM 10** in 1 Liter of water (0.2%). This dilution provides 200 ppm of active polyhexamethylene biguanide. **Do not rinse if the concentration is equal or below 200 ppm.**

PROPERTIES

Appearance: Clear liquid

pH (as is): 7.00±1.00

PRECAUTIONS

Keep out of reach of children. Harmful if swallowed or inhaled. Do not swallow. Do not inhale aerosols or vapors. May irritate eyes or skin. Do not get in eyes or skin or clothing. Avoid contamination of food.

CONTAINS : polyhexamethylene biguanide (PHMB) : 10% active
