WIDE-SPECTRUM
LIQUID SANITIZER FOR HARD SURFACES

GUARANTEE:
POLYHEXAMETHYLENE BIGUANIDE (PHMB): 5%

DESCRIPTION
WIDE-SPECTRUM is a non-foaming sanitizer that could be used by circulation or manual application to sanitize non-porous hard environmental surfaces in food processing plants.

APPLICATION
Remove gross filth and heavy soil deposits. Preclean all surfaces prior to application.

Concentration: Thoroughly wet surfaces. Dilute 1 part WIDE-SPECTRUM in 100 parts water (10mL WIDE-SPECTRUM /1 Liter of water). This dilution provides 500 ppm of active polyhexamethylene biguanide. Allow treated surfaces to remain wet for a minimum of 10 minutes in a single application. Can be applied with a mop, sponge, or cloth as well as coarse (trigger) spray. Prepare a fresh solution for each use then discard. For food plant use, food contact surfaces should be rinsed with abundant potable water after application.

To Sanitize: For use on hard non-porous surfaces such as counter tops. Preclean all surfaces prior to sanitizing. Dilute 4mL WIDE-SPECTRUM in 1 Liter of water (0.4%). This dilution provides 200 ppm of active polyhexamethylene biguanide. Do not rinse if the concentration is equal or below 200 ppm.

PROPERTIES
Appearance: Clear liquid
pH (as is): 7.00±1.00

DISPOSAL
-Rinse the emptied container thoroughly and add rinsings to the treatment site.
-Make the empty container unsuitable for further use.

PRECAUTIONS
Keep out of reach of children. Harmful if swallowed or inhaled. Do not swallow. Do not inhale aerosols or vapors. May irritate eyes or skin. Do not get in eyes or skin or clothing. Avoid contamination of food.

CONTAINS: polyhexamethylene biguanide (PHMB): 5% active
